

Curious about how children learn to read and write?

Come join us for a free family literacy workshop hosted by
Dr. Una Malcolm from Dyslexia Canada!

Designed for families and caregivers of students in Grades K-8, this welcoming session will explore how literacy develops, share simple ways to support reading and writing at home, and discuss what caregivers can do when learning feels challenging.

Whether your child is thriving, building confidence, or could use a little extra support, you'll leave with **practical strategies to help every learner grow.**

When & Where → Wednesday, September 16th

Two workshops available:

10:00 - 11:00am

6:30 - 7:30pm

Held in the **Poplar room** at the **Complex**
(5001 Joyce Ave).

No registration required.

Families are welcome to attend either session.
